Professional Summary

Industrial Engineering graduate from Universitas Singaperbangsa Karawang with a strong focus on Warehouse and Supply Chain Management. Experienced in Goods Receipt (GR), warehouse administration, and the development of a material receipt monitoring system that improved data accuracy by 92% and monitoring efficiency of Purchase Orders (PO) and Goods Receipt by 66%. Possess solid knowledge of FIFO, FEFO, and LIFO principles, with strong skills in process analysis, data handling (Microsoft Excel, Word, and PowerPoint), and HSSE, supported by General OHS Expert (Ahli K3 Umum) certification from BNSP.

Education

Universitas Singaperbangsa Karawang **Sep 2021 – Jul 2025**
Bachelor of Industrial Engineering | GPA: 3.80 / 4.00
Bachelor's thesis: Development of a Goods Receipt (GR) Monitoring System in the Warehouse at PT Pertamina EP Subang Field
Relevant Coursework:

Experience

Supply chain management Intern, PT Pertamina EP Subang Field **Sep 2024 – Des 2024**

- Verified Goods Receipt (GR) documents and inbound material data with $\pm 95\%$ accuracy.
- Supported warehouse receiving and inventory recording operations with $\pm 90\%$ data input accuracy.
- Developed a Goods Receipt (GR) monitoring system that improved Purchase Order (PO) monitoring efficiency by 66%.

Warehouse Intern, PT Pertamina EP Subang Field **Jan 2024 – Feb 2024**

- Performed ABC classification of chemical material inventory based on usage value and cost contribution.
- Analyzed chemical material consumption and stock data to determine inventory control priorities.
- Conducted an inventory control study using the ABC method as a basis for evaluating stock management.

Industrial Work Practice Warehouse Operator, PT Telkom Akses **Jan 2020 – Mar 2020**

- Conducted quantity and quality inspections with $\pm 98\%$ conformity prior to storage and distribution.
- Recorded and monitored inbound and outbound material flows with $\pm 95\%$ administrative accuracy using the warehouse system.
- Prepared and distributed approximately 90% of technicians' equipment on time to support customer installation activities.

Certifications

TOEFL 623	Okt 2025
Ahli K3 Umum (BNSP) – Mutu Mutiara Sertifikasi	Ags 2025
Microsoft Excel, Word and PowerPoint – Myskill	Des 2025

Project

Goods Receipt Monitoring System Development **Sep 2024 – Des 2024**

- Developed a Goods Receipt monitoring system by transforming Purchase Order (PO) data repositories into a structured PO monitoring system, achieving a 66% improvement in monitoring efficiency compared to the previous process.

Skills

- **Microsoft Office:** Microsoft Excel, Word, PowerPoint, Power BI
- **Soft Skills:** Leadership, Teamwork, Communication, Data Analysis
- **Languages:** Indonesian (Fluent), English (Intermediate)
- **Programming & Web Technologies:** Python, JavaScript, Node.js, React, Next.js.
